

Proven Processes

TriSept facilitates successful **cost-effective** and **repeatable** launch opportunities by providing:

- o Mission manifesting processes that effectively coordinate collaboration between compatible customers, allowing equitable cost-sharing
- o Innovative, **lightweight** and agile adaptors and attachment hardware that support combinations of payloads on an array of launch vehicles, including “new space” launch vehicles.
- o **20+ years** of mission integration experience at Cape Canaveral AFS, Wallops Island, New Zealand Launch Site, Kodiak Launch Site and Mojave Space Port.
- o Extensive experience integrating an array of commercial and US Government satellite programs on light, medium and heavy-lift launch vehicles
- o Actively working missions with all of the latest entrant smaller launch vehicles

SMALL BUSINESS EQUALS

UNCOMMON QUALITY

TriSept Corporation is a certified small business. Why should that matter to you? Because our team is hand-selected for their experience and talent to support your mission. Employing small, agile very experienced teams allows TriSept to be more efficient resulting in cost & schedule savings for your program.

Comprehensive Approach

TriSept is dedicated to providing a comprehensive set of tailored template documents to simplify the verification and validation phase of launch integration. When you begin a partnership with TriSept, you can rest assured in our integrity and experience.

Trusted Partnerships

TriSept’s reach goes well beyond just being an integrator for your satellite mission. By leveraging our extensive network of trusted partnerships from years of successful missions, TriSept can include dispensers, separation devices, harnesses, support electronics and analysis support in our services for your launch. If your payload requires a custom-built solution, we can help design and order the necessary hardware for you.

MORE EXPERIENCE

TriSept Corporation is proud to have launched 200+ satellites for our customers making us one of the most experienced launch integrators in the industry serving both the government and commercial satellite communities.

Light, Medium and Heavy Lift Launch Vehicles

New Entrant Launch Vehicles

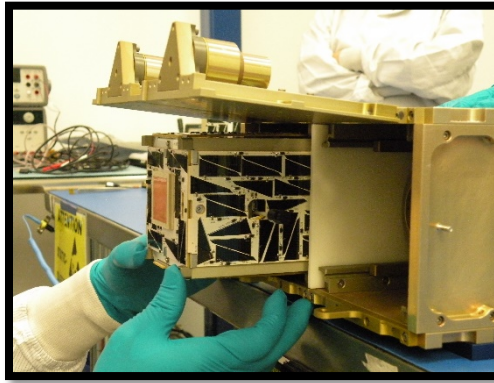

10+ Launch Facilities (incl: CCAFS, VAFB, New Zealand)

“ Integrity must remain at our core if TriSept Corporation is to continue to innovate the future of space. ”

**ROB SPICER; FOUNDER/PRESIDENT & CEO
TRISEPT CORPORATION**

Integrity is the cornerstone of TriSept Corporation: Striving to ensure that all of the decisions made, actions taken, and words spoken are always performed in honor to the mission objectives, not to further corporate gain but because it is just and right.

PIONEERS IN THE FIELD

TriSept was one of the first launch integrators to establish a GSA engineering services schedule allowing our US Government customers to purchase launch services. This simplifies the contracting process and makes access to space more agile.
